Developed by Dr. Peter A. Levine, Somatic Experiencing® (SE) is an integrative approach to trauma healing, resolution and prevention. Underpinning SE is a psychobiological framework that taps on the innate ability of our nervous system to restore equilibrium and wholeness after a traumatic incident.

The complete training program consists of three levels. Each level is made up of two modules of six days each (36 hours each module).

### ADVANCED LEVEL

- Learn about the relationship of trauma to various clinical syndromes.
- Further integrate SE theory and practice into the specialty area of the therapist.
- SE bodywork in working with the different categories of trauma.
- Application of research in the psychophysiology of trauma.
- The 'art' of therapy.
- Special topics including work with children and infants.

### TRAINER

Lael Katharine Keen, a Certified Advanced Teacher of Somatic Experiencing®, began her studies with Dr Peter Levine in 1993 and was immediately captivated by the power and reach of his work. Together with the Brazilian Roling Association and Pedro Prado, she helped to bring the first Somatic Experiencing training to Brazil in 1998. She and her husband Russell Jones are some of the co-founders of the Brazilian Trauma Association and they teach Somatic Experiencing® together and separately throughout the world on four continents as well as in their home, in the rainforest on the island of Santa Catarina in the south of Brazil.
